Tétu-Bernier, P.; Maruyama, P.J.; Hiratsuka, Y. 1983. List of fungal cultures deposited at the Northern Forest Research Centre. Environ. Can., Can. For. Serv., North. For. Res. Cent. Edmonton, Alberta. Inf. Rep. NOR-X-249.

ABSTRACT

Cultures of fungi available in the fungus culture collection of the Northern Forest Research Centre, Canadian Forestry Service, Edmonton, Alberta, are listed in alphabetical order. This collection consists mainly of wood-inhabiting fungi and fungi that are pathogenic to trees. A host index is also provided.

RESUME

Les cultures de champignons qu'on peut trouver dans la collection du Centre de recherches forestières du Nord (Service canadien des forêts, Edmonton (Alberta)) sont énumérées par ordre alphabétique. La collection comprend principalement des champignons vivant dans le bois et des champignons pathogènes. Un index des hôtes est également inclus.

INTRODUCTION

The fungus culture collection at the Northern Forest Research Centre, Canadian Forestry Service, Edmonton, Alberta, was started in the early 1950s, when the Forest Entomology and Pathology Laboratory was located in Calgary. This collection has been maintained as the depository for material used for research projects in forest pathology carried out in the laboratory. Earlier collections consist mainly of wood decay fungi, but a significant number of collections of blue stain fungi, mycoparasites, *Ceratocystis ulmi*, and *Armillaria mellea* complex have been added, including many isolates obtained from other researchers and culture collections across North America and a few from other regions of the world.

If the cultures were obtained from or sent to major culture collections, the accession number of these collections are listed. Abbreviations for these collections are as follows:

ATCC American Type Culture Collection, Rockville, Maryland, USA.

CBS Centralbureau vor Schimmelcultures, Baarns, The Netherlands.

DOAM Mycological Herbarium, Plant Research Institute, Department of Agriculture, Ottawa, Ontario.

SSMF Great Lakes Forest Research Centre, Canadian Forestry Service, Sault Ste-Marie, Ontario.

UAMH University of Alberta Mold Herbarium and Culture Collection, Edmonton, Alberta.

UBC Department of Botany, University of British Columbia, Vancouver, British Columbia.

Subcultures of all listed cultures can be obtained by writing to:
